

GROW. FROM THE INSIDE OUT.

NURTURE YOUR BUSINESS
WITH A HEALTHIER TALENT PIPELINE

Apprenticeship is key to your growth.

Companies like Apple, Adobe and IBM have proven Apprentice programs as an innovative approach for hiring essential workers for in-demand jobs. Now more than ever, Americans need educational options and career pathways which are cost effective and oriented to delivering skilled careers and stable employment. While it is used in traditional industries such as construction and manufacturing, apprenticeship is also instrumental for training and development in growing industries, like information technology. After an intensive bootcamp, apprentices are hired by employers and receive a paycheck from the first day of work.

“All of the apprentices represent a skill set that we have found incredibly hard to find. I commend your program!”

Ryan Dunn
CEO - Mantis Composites

THE BENEFITS OF SLO PARTNERS:

**Attitude Screening and
Aptitude Training**

Specialized Training

**Talent Matching for
In-Demand Jobs**

**Supporting the
Local Community**
